❖ Project #1

Title : Smart Street Light Controlling and Monitoring Based on Light Intensity.

Description : India facing the major problems in maintenance of street lights. In India street lights are maintained manually, it is found that there is wastage of power by operating the streetlights due to manual operations like switch on the lights at day time. In order to overcome this Problems, an automatic street light method is introduced.

Project #2

❖ **Title : Travel Blog (Web Designing Used Html, Css, JavaScript)**

- ❖ **Description:** Young stars are facing problem their don't know correct guidelines to Travel beautiful locations and trekking places, which can be safe and Secure. Moreover, Employees who travel in weekends, This Website shows some of travelling locations, and More Devotional Temples.
